Sir Robt. A. Falconer
President Univ. of Toronto,
Toronto, Ont.

Dear President Falconer,-

The following official message has come through concerning Mr. Young and I. "The Admiralty has asked for the services of Mates R.N.C.V.R. J.F.T. Young and H.J.C. Ireton. The Capt. Supt. at Halifax is instructed to arrange for their passage to England with the Commander in Chief."

I am now home on last leave since Saturday last and expect to be called to Halifax at anytime by telegram.

Mr. Young and I have had a most interesting two months on the waters from south of Halifax up through Belle Isle Straits

I would consider it a great favor if you could give a general letter of introduction or if you care to personal ones to friends in London

Yours Sincerely
H. J. C. Ireton M. A.

E. J. C. Ireton, Esq., M.A.,

R. R. 2,

Perth, Ont.

Dear Mr. Ireton:

The circle of my acquaintances in London is very small indeed, and I cannot think of any one to whom I could give you a letter which would be of any special service to you. I should think that Professor McLennan would be the best one to whom always to appeal as he is to be in London at the Admiralty all winter. However, I am sending you a general letter which I hope may be of some advantage to Mr. Young and yourself. At the same time I hope that you will both have a successful period of service. I am sure that you will do good work and we trust that you will return home before very long safe and sound.

Yours sincerely,

President.

TO WHOM IT MAY CONCERN:

This certifies that Mr. H. J. C. Ireton, M.A. and Mr. J. T. E. Young, M.A., who are undertaking service in the R.N.C.V.R., are graduates of the University of Toronto and have been on the staff of the Department of Physics. We were very sorry to lose their services from the University, but at the call of duty they have volunteered for service in the Navy. I certify with pleasure to their high character and am assured that they will perform with devotion and intelligence any duties that they feel competent to undertake.

President.
